Is this organization a nonprofit (501c3)?	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Do you accept used solar equipment as a donation?	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Do you accept solar modules (panels)?	Crystalline silicon, Thin film	Crystalline silicon	Crystalline silicon, Thin film	Crystalline silicon	Crystalline silicon	Crystalline silicon, Thin film	Crystalline silicon
Do you accept inverters?	Microinverters, String inverters, Central inverters	Microinverters, String inverters, Central inverters	Microinverters, String inverters, Central inverters	No inverter donation	Microinverters, String inverters	Microinverters, String inverters, Central inverters	String inverters, Central inverters
Do you accept batteries?	Lead Acid, Lithium Ion, Glass Mat, Gel Cell	No battery donation	Lithium ion	No battery donation	Lithium ion	Lead acid, Lithium ion, Nickel cadmium, Glass mat, Gel cel, Flow	No battery donation
Do you require that donated equipment be covered by a manufacturer's warranty?	No	No	No	No	No	No	Preferred but not an absolute requirement
Do you require that the donor test equipment prior to accepting donation? If yes, please explain.	No	The donor shall provide verification the modules, inverters & BOS is safe and functioning to at least 70% name plate rating. This can be done by providing string or module level monitoring data, IV curve testing or industry recognized practice.	No	No	Module testing is always appreciated but not required. We do ask for string level operation validation prior to decommissioning for large systems. We can not accept broken panels.	No	We ask that they know the equipment to be functioning. We do detailed testing once received but we do not have the capacity to handle other organization's electronic waste.
Where do you accept donated solar equipment? Please list city and state of all locations.	Pine Ridge, SD	Currently, Brighten Haiti can accept donations of functioning modules, inverters and BOS that fill a 20' container (approximately 250 modules) from any city/state in the US.	USA	Recycle PV Solar, South Lake Tahoe, NV	We accept panels throughout most of California. Out of state will depend on quantity and delivery logistics.	Columbia, Maryland	We are based in Gunnison and Huerfano counties in Colorado. We can also drive to pick up donations across Colorado and New Mexico.
Do you offer assistance with shipping logistics? If yes, please explain.	Yes. RCR assists with shipping logistic by providing clear directions and communication.	Brighten Haiti can provide free shipping on donations of a 40' container or larger, from any city. We will send the container to the jobsite. The donor will have the equipment securely palletized and loaded in to the container. We will take care of the rest. Including expenses. For smaller donations please contact kevin.keene@brightenhaiti.org to discuss.	Yes, we can figure out logistics if needed to pick up donations	Fill out the intake form with Recycle PV Solar at https://recyclepv.solar/get-started/ to receive assistance with shipping logistics.	Yes, we can and have assisted with shipping logistics, it greatly depends on the size of the order. Most clients we currently work with pay the shipping to our facility as that can become part of the charitable contribution.	No	We can help with this on a case-by-case basis.
Do you offer a donation receipt?	Yes	Yes	Yes	Yes	Yes	Yes	Yes
